

IN THE CLAIMS

Please amend the claims as follows:

Claim 1 (Currently Amended): A lubricating oil composition for diesel engines, ~~characterized in that~~ comprising a lubricating base oil ~~comprises~~ comprising a component (A): 2 to 30 % by mass, based on the total amount of the composition, of a succinimide compound having an alkenyl group or an alkyl group of a number average molecular weight of 80 to 500 or a boronic compound thereof, and
a component (B): 0.5 to 30 % by mass, based on the total amount of the composition, of a succinimide compound having an alkenyl group of a number average molecular weight of 800 to 3,500 or a boronic compound thereof.

Claim 2 (Original): The lubricating oil composition for diesel engines according to claim 1, wherein the component (A) comprises a mono-based succinimide compound or a boronic compound thereof as the component (A).

Claim 3 (Currently Amended): The lubricating oil composition for diesel engines according to claim 1 ~~or 2~~, wherein the component (A) / the component (B), which represents the blending ratio by mass of the component (A) to the component (B), is in the range of 0.3 to 10.

Claim 4 (Currently Amended): The lubricating oil composition for diesel engines according to ~~any one of claims 1 to 3~~ claim 1, comprising boron content of 30 ppm by mass or more.

Claim 5 (Currently Amended): The lubricating oil composition for diesel engines according to ~~any one of claims 1 to 4~~ claim 1, comprising further an ashless antiwear agent of a component (C).

Claim 6 (Original): The lubricating oil composition for diesel engines according to claim 5, wherein the ashless antiwear agent is a non-phosphoric antiwear agent.

Claim 7 (Currently Amended): The lubricating oil composition for diesel engines according to ~~any one of claims 1 to 6~~ claim 1, comprising a sulfated ashes content of 0.8 % by mass or less.

Claim 8 (Currently Amended): The lubricating oil composition for diesel engines according to ~~any one of claims 1 to 7~~ claim 1, comprising no metals.
